Visions of Light Photographic Exhibition

The Tri-Lakes Center for the Arts (TLCA) is pleased to announce a Call for Artists to participate in a juried photographic exhibition. Artists are invited to submit their fine art in photography for consideration.

The mission of the 2013 VOL exhibition is to challenge photographers to go beyond producing a technically correct photographic image and demonstrate their use and/or control of light to help define the subject. The light can be natural, man-made, or a combination that enhances the impact, drama, emotion, composition, and/or message of the image. Please note that the show categories are different from the ones used last year and the ones used the year before and probably from the ones that will be used next year. The underlying theme behind each category is one’s vision, use or interpretation of light.

2013 Show Judge – John Fielder
The judge for the 2013 Vision of Light will be the nationally renowned photographer John Fielder.
