The CMC Photo Section is committed to helping people improve their outdoor photography skills and provide photographic opportunities through meetings, classes, social events and photo hikes. The section’s instruction focuses primarily on how to capture better nature photographs. This is not to say that gear and software instruction is not provided, but that we are focused on how to achieve photographic results. The section includes individuals of all skill levels from beginners to professionals.

Contains photos, trips and photo techniques. While it is written for underwater photographers, it is quite well done and some of the information is universal.

**http://lenscratch.com** A very good comprehensive website about photography. They have a new photographer every day, plus much more, including online exhibitions that you can be a part of, links to other websites, and shows to enter. It has constantly rated as one of the best websites for photography in the world.
