March 10th Meeting

The March meeting of the CMC Photo Section will be a follow up to the February webinar, *Making the Most of Any Light and Weather*, and involves member participation.

Yes! We will all have an assignment to challenge ourselves! In challenging ourselves to find subjects to photograph in difficult light, please select one or more of the following categories:

1. Look for cool shadows and warm highlights within a landscape
2. Photograph a subject in shade
3. Photograph in black and white during harsh midday light
4. Revisit locations in different lighting situations
5. Photograph in different weather conditions
6. Photograph a landscape from late afternoon all the way to twilight
7. Work with reflected light
8. Study a tree and the way light interacts with the tree

Share two or more images from the above categories or from any other part of the webinar and be prepared to discuss your images.

Critique Image Questions

Questions to Answer for Each Critique Image:

- Why did you photograph this image?
  Be specific, such as:
  - I thought it was beautiful because ...
  - I wanted to express...
- What challenges did it provide?
- How did you overcome these challenges?
- Which challenges didn’t you find a solution for?
- What would you do different next time, if anything?
- What would you like critiqued or information about?

For each image, it may be helpful to write down your answer for each question.
This month’s meeting will be held using Zoom

IMPORTANT: This meeting will occur over video chat using Zoom.

Meeting will start at 7 pm.

Use the link and dial in provided in the CMC photo section email to join the meeting.

For 2021, we are asking for Shooter’s Choice volunteers

The photography group is diverse, with numerous photographic interests and skill levels. We are looking for presentations about any interest at any skill level. The concept of Shooter’s Choice is to learn about both photography and the lessons learned on our unique photographic journeys. This may include photos from a single day trip, a vacation, or decades of experience, but should primarily address the photography performed along the journey. Presentations may last 45-60 minutes. It may be single person’s work or a group of people may split that time.

A Shooter’s Choice presentation involves selecting a related set of photographs to discuss. These need not be polished photos. They may address an exploration of one subject, an experiment, an attempt to solve a problem, or the key results of your learning curve through your journey.

The presentation may include:

1. What you liked or disliked about the photos and what you might do differently next time.
2. How the photograph was taken (if pertinent include camera mode, lens, focus, depth of field, ISO, shutter speed, etc.)
3. What challenges you addressed, and the successes and failures you had.

Your Shooter’s Choice can be a great way to improve your photography skills and meet people with like photographic interests. We look forward to seeing your photographs!

If interested, contact Selma Kristel at hikerselma@gmail.com. If you would like more information or assistance with your Shooter’s Choice, please contact Dan Orcutt at orcutt.cmc@comcast.net.
Contribute Photos for CMC Coursework

The CMC is reformatting coursework for all CMC schools for digital delivery. The coordinator has asked if the photography section members would be willing to contribute photographs. The school director would reach out to us for content on a specific subject. Should we have images that would help illustrate or compliment the online course content we would provide this to them.

Anybody with an interest in contributing to this effort should contact Frank Burzynski via email: fburzynski@comcast.net.

COVID-19 and Colorado Mountain Club

As Colorado continues to alter restrictions surrounding COVID-19, the Colorado Mountain Club has altered its offerings with adjusted protocols to address COVID-19.

Find out more information and see the latest CMC announcements regarding COVID-19 at: https://www.cmc.org/COVID-19andCMCProgramming.aspx

Website Recommendations by Members

lightstalking.com Tips and tutorials, feedback, and downloadable photo goodies.

essential-photoshop-elements.com Photoshop Elements 13 tutorials by Rick Peterson

divephotoguide.com Contains photos, trips and photo techniques by Matt Weiss. While it is written for underwater photographers, it is quite well done and some of the information is universal.

lenscratch.com A very good comprehensive website about photography. They have a new photographer every day, plus much more, including online exhibitions that you can be a part of, links to other websites, and shows to enter. It has constantly rated as one of the best websites for photography in the world.

photoeye.com/bookstore/index.cfm Photoeye Book Store, a great site about all sorts of photo books, one of the best for this subject.

muybridgeshorse.com Muybridge’s Horse is a newer website devoted to animal photography and art. The young woman who started it went to school at CU.

newlandscapephotography.com New Landscape Photography is just that—a site about landscape photography. It has a new photographer once or twice a week and is also a Facebook group where anyone can upload photos.

featureshoot.com/2014/02/52-photo-sites-get-inspired/#!vkVXB Feature Shoot, with a list to 50 more.

the-digital-picture.com Canon data including Zeiss, etc.

imaging-resource.com Detailed analysis of cameras and lenses.

luminous-landscape.com Techniques, tutorials, essays and reviews.

app.photoephemeris.com Sun and moon data displayed on a map.

dpreview.com General and specific topics of interest to photographers including excellent, thorough reviews.

dxomark.com Excellent technical data on cameras and lenses.

coloradocaptures.com General and specific topics of interest to photographers.

shadowhousecreations.blogspot.com Creative resources for artistic people. Free textures, brushes, tips and tutorials from photo artist Jerry Jones.

brusheezy.com Free Photoshop brushes, textures, patterns, and graphics.
