Join us at 7pm March 9th for a presentation by club member Mark Evans

Winter in Yellowstone

Years ago, at a photo club meeting in Tennessee, a friend showed pictures of a winter trip to Yellowstone and Mark put it on his list of things to do.

After moving to Colorado in 2015, Mark realized, “Hey, Yellowstone is right up the road. It’s time to go!” So in January of 2017, Mark packed his camera, snowshoes, bathing suit, etc. and headed North.

Mark’s Shooter’s Choice will be an entertaining, illustrated travelogue of Yellowstone and some stops along the way. Mark will explain how he did the trip, how he’ll do his next one, and answer any questions you might have.
This month’s meeting will be via Zoom

IMPORTANT: This meeting will be held via Zoom.

Presentation will start at 7 pm.

Use the link and dial-in information provided in the CMC photo section email to join the meeting.

Critique Image Questions

Questions to answer for each critique image:

- Why did you photograph this image?
  Be specific, such as:
  - I thought it was beautiful because...
  - I wanted to express...
- What challenges did it provide?
- How did you overcome these challenges?
- Which challenges didn’t you find a solution for?
- What would you do different next time, if anything?
- What would you like critiqued or information about?

For each image, it may be helpful to write down your answer for each question.

The photography group is diverse, with numerous photographic interests and skill levels. We are looking for presentations about any interest at any skill level. The concept of Shooter’s Choice is to learn about both photography and the lessons learned on our unique photographic journeys. This may include photos from a single day trip, a vacation, or decades of experience, but should primarily address the photography performed along the journey. Presentations may last 45-60 minutes. It may be single person’s work or a group of people may split that time.

A Shooter’s Choice presentation involves selecting a related set of photographs to discuss. These need not be polished photos. They may address an exploration of one subject, an experiment, an attempt to solve a problem, or the key results of your learning curve through your journey.

The presentation may include:

1. What you liked or disliked about the photos and what you might do differently next time.
2. How the photograph was taken (if pertinent include camera mode, lens, focus, depth of field, ISO, shutter speed, etc.)
3. What challenges you addressed, and the successes and failures you had.

Your Shooter’s Choice can be a great way to improve your photography skills and meet people with like photographic interests. We look forward to seeing your photographs!

If interested, contact Selma Kristel at hikerselma@gmail.com. If you would like more information or assistance with your Shooter’s Choice, please contact Dan Orcutt at orcutt.cmc@comcast.net.
