Topics covered will include:
- Various styles of underwater photography
- Camera settings
- Camera gear (from budget to professional)
- Considerations when shooting below the surface

Join us to learn how you can broaden your photography horizons!
This month’s meeting will be via Zoom

IMPORTANT: This meeting will be held via Zoom.

Presentation will start at 7 pm.

Use the link and dial-in information provided in the CMC photo section email to join the meeting.

Image Submission

For the October meeting, please submit a recent photograph that resulted from a personal assignment. The assignment may be goal-oriented or experimental. A goal may result from review of previous photos, a collaboration, or simple inspiration. An experiment may involve capturing a new subject type, trying a new technique, or using a different artistic approach.

Please submit these photos by Oct. 10th to Adam Johanknecht (adam.johanknecht@gmail.com).

Critique Image Questions

Questions to answer for each critique image:

- Why did you photograph this image?
  Be specific, such as:
  - I thought it was beautiful because...
  - I wanted to express...
- What challenges did it provide?
- How did you overcome these challenges?
- Which challenges didn’t you find a solution for?
- What would you do different next time, if anything?
- What would you like critiqued or information about?

For each image, it may be helpful to write down your answer for each question.

Shooter’s Choice Volunteers

The photography group is diverse, with numerous photographic interests and skill levels. We are looking for presentations about any interest at any skill level. The concept of Shooter’s Choice is to learn about both photography and the lessons learned on our unique photographic journeys. This may include photos from a single day trip, a vacation, or decades of experience, but should primarily address the photography performed along the journey. Presentations may last 45-60 minutes. It may be single person’s work or a group of people may split that time.

A Shooter’s Choice presentation involves selecting a related set of photographs to discuss. These need not be polished photos. They may address an exploration of one subject, an experiment, an attempt to solve a problem, or the key results of your learning curve through your journey.

The presentation may include:

1. What you liked or disliked about the photos and what you might do differently next time.
2. How the photograph was taken (if pertinent include camera mode, lens, focus, depth of field, ISO, shutter speed, etc.)
3. What challenges you addressed, and the successes and failures you had.

Your Shooter’s Choice can be a great way to improve your photography skills and meet people with like photographic interests. We look forward to seeing your photographs!

If interested, contact Selma Kristel at hikerselma@gmail.com. If you would like more information or assistance with your Shooter’s Choice, please contact Dan Orcutt at orcutt.cmc@comcast.net.
