Water, in all forms, is largely responsible for sculpting our mountain landscapes. Moreover, as a photographic subject, water adds strength and depth to landscape photographs through interplay with ambient lighting conditions.

This Shooter’s Choice session entitled “Water at Work” will highlight some of Stan’s recent photographic activity along rivers and lakes in Colorado and Wyoming.

Stan Paxton, a geologist by training, has been a member of CMC and the Photo Section since 2017. His interest in water as a photographic subject grew from recognition that fresh water is an undervalued resource deserving of more public attention.
This month’s meeting will be via Zoom

IMPORTANT: This meeting will be held via Zoom.

*Presentation will start at 7 pm.*

Use the link and dial-in information provided in the CMC photo section email to join the meeting.

Photo Section Volunteers Needed

Currently, the Photo Section needs members for the following tasks:

1. Technical support at meetings to include laptops, projectors and their interfaces
2. Emcee meeting to mention section business, activities, and introduce the presenter
3. Enlist presenters for future meetings including shooter’s choice
4. Lead photo outings and hikes
5. Publish monthly newsletters
6. Manage section Facebook page
7. Post monthly meeting to CMC calendar.

Please email orcutt.cmc@comcast.net or fburzynski@comcast.net if you’d like more information or would like to volunteer for one of the above roles.
Shooter’s Choice Volunteers

The photography group is diverse, with numerous photographic interests and skill levels. We are looking for presentations about any interest at any skill level. The concept of Shooter’s Choice is to learn about both photography and the lessons learned on our unique photographic journeys. This may include photos from a single day trip, a vacation, or decades of experience, but should primarily address the photography performed along the journey. Presentations may last 45-60 minutes. It may be single person’s work or a group of people may split that time.

A Shooter’s Choice presentation involves selecting a related set of photographs to discuss. These need not be polished photos. They may address an exploration of one subject, an experiment, an attempt to solve a problem, or the key results of your learning curve through your journey.

The presentation may include:

1. What you liked or disliked about the photos and what you might do differently next time.
2. How the photograph was taken (if pertinent include camera mode, lens, focus, depth of field, ISO, shutter speed, etc.)
3. What challenges you addressed, and the successes and failures you had.

Your Shooter’s Choice can be a great way to improve your photography skills and meet people with like photographic interests. We look forward to seeing your photographs!

If interested, contact Selma Kristel at hikerselma@gmail.com. If you would like more information or assistance with your Shooter’s Choice, please contact Dan Orcutt at orcutt.cmc@comcast.net.
